COMPANY PROFILE

/1 ABOUT US

A fifty-year link between the world's brands and the Kingdom's shelves.

Bafail Group is a family-owned FMCG import and distribution company based in the Kingdom of Saudi Arabia, operating under the legal name Omar Saeed Aboud Bafail Sons Company Limited. Since 1972, we have built a distribution network that brings trusted international and regional brands onto the shelves of retailers across Jeddah and Makkah.

We import, warehouse, and distribute confectionery, biscuits, wafers, sweets, and snacks on behalf of a portfolio of global principals — acting as the trusted link between the brands the market wants and the retailers who serve it.

/2 OUR STORY

Since 1972, **one name** has stood behind the shelves of the Kingdom.

Bafail Group began as a family enterprise in Makkah, built quietly and deliberately — the way three generations of the same family have chosen to build everything since. We don't chase attention. We distribute the brands that Saudi households already trust, and we do it with the same discipline our founders started with over fifty years ago.

Today, the third generation carries that name forward — not by making it louder, but by making it larger: more principals, more categories, more shelves. Bafail's presence isn't measured in noise. It's measured in the households across Jeddah and Makkah who reach for what we bring them, without ever needing to know our name.
